

SINETHEMBA MVELASE

Software Developer | Full-Stack Engineer | Web, Cloud & AI Applications

Johannesburg, South Africa • thegoatzeldris70@gmail.com • +27 72 411 0997

Live Project: [kasikash.com](#) • GitHub: [github.com/snerantie](#)

PROFESSIONAL SUMMARY

Full-stack **Software Developer** with a **BSc in Mathematics and Physics** and hands-on experience shipping production web applications end-to-end — from database schema and backend APIs to modern **React / TypeScript** front-ends and automated **CI/CD** deployment. Founder and lead engineer of **KasiKash (kasikash.com)**, a live AI-powered financial platform serving township small businesses. Comfortable across the stack: **TypeScript, JavaScript, Python, Node.js, Express, React, PostgreSQL, Prisma, Redis, and Supabase**, deploying via **GitHub Actions, Vercel, and Render**. Currently a **Discover Graduate Trainee at Vodacom Financial Services**, where I automate workflows and build tooling that supports senior technology leadership. I care about clean, maintainable code, pragmatic architecture, real-time systems, and shipping features that users actually rely on. I am looking for a **Software Developer** role where I can grow as an engineer while contributing production code from day one.

TECHNICAL SKILLS

Languages: TypeScript • JavaScript • Python • SQL • HTML • CSS
Frontend: React 19 • Vite • Tailwind CSS • Framer Motion • React Query • Zustand • Responsive UI
Backend: Node.js • Express.js • REST APIs • JWT Authentication • Socket.IO • Bull Queue • Web Speech API
Databases: PostgreSQL • Prisma ORM • Redis • Supabase • BigQuery
Cloud & DevOps: AWS • AWS Bedrock • Google Cloud Platform • Vercel • Render • Git • GitHub • GitHub Actions • CI/CD
AI / Applied: LLM integration (Anthropic Claude) • NLP • Voice AI • Prompt Engineering • Machine Learning
Practices: Version Control • Automated Deployment • Real-Time Systems • Agile Delivery • Data Modelling

TECHNICAL SKILLS MATRIX

Domain	Technologies	Proficiency
Frontend Development	React, TypeScript, Vite, Tailwind, React Query, Zustand	Advanced
Backend Development	Node.js, Express, REST APIs, Socket.IO, JWT, Bull Queue	Advanced
Databases	PostgreSQL, Prisma, Redis, Supabase	Advanced
Languages	TypeScript, JavaScript, Python, SQL	Advanced
Cloud & Deployment	AWS, GCP, Vercel, Render	Intermediate–Advanced
DevOps / CI-CD	Git, GitHub, GitHub Actions, Automated Pipelines	Advanced
AI Integration	AWS Bedrock, Claude, LLM APIs, NLP, Voice AI	Intermediate
Real-Time Systems	WebSockets (Socket.IO), Queues, Notifications	Intermediate

PROJECTS

KasiKash — AI-Powered Financial Platform Founder & Lead Software Developer	kasikash.com
- Designed and built a live, production web application end-to-end: a voice-first, multilingual financial operating system for township small businesses. Frontend: React 19, TypeScript, Vite, Tailwind CSS, and Framer Motion; integrated the Web Speech API for voice-driven data capture in English, isiZulu, and Sesotho. Backend & data: modelled a normalised PostgreSQL schema on Supabase, built transaction capture, categorisation, debt tracking, and an alternative credit-scoring feature (KasiScore). Delivery: automated build, test, and deployment via GitHub Actions CI/CD, hosted on Vercel.	
Enterprise Delivery Management Platform Full-Stack Engineer	Full-stack + real-time
- Built an enterprise delivery-management system with driver trip tracking, cash-on-delivery verification, dispatch management, and administrative oversight. Frontend: React, TypeScript, Vite, Tailwind, React Query, Zustand. Backend: Node.js, Express.js, PostgreSQL, Prisma, Redis, Bull Queue, JWT authentication, and Socket.IO for real-time notifications and live tracking. - Designed the data model, secure auth flows, and background job processing for reliable operations at scale.	
CAPS AI Tutor — Conversational Learning App Founder & Developer	LLM + WhatsApp/USSD
- Built an AI tutoring application aligned to the South African CAPS curriculum, powered by LLMs on AWS Bedrock (Anthropic Claude). - Integrated WhatsApp and USSD channels for low-bandwidth access; implemented multilingual NLP support. - Deployed with Python, GitHub Actions CI/CD, Vercel, and Render.	

PROFESSIONAL EXPERIENCE

Discover Graduate Trainee — Technology Management

Feb 2025 – Present

Vodacom Financial Services — Johannesburg, South Africa

- Build **automation tooling and reporting solutions** using Python and advanced Excel to support senior technology leadership.
- Support cross-functional technology initiatives across Service Management, PI Delivery, Risk Management, Technology Assurance, and AWS Cost Optimization.
- Collaborate with engineers, analysts, and executives to translate business requirements into working, data-driven solutions.

Reporting Analyst Intern

Jun 2024 – Jan 2025

Vodacom Financial Services — Johannesburg, South Africa

- Developed Power BI dashboards and automated Excel reporting; performed data extraction, transformation, and KPI reporting.
- Automated repetitive reporting processes, improving turnaround time and accuracy.

Data Scientist (Project-Based)

Cross-Border Engagement

Vodafone Portugal — Data Science Project

- Extracted and transformed large datasets on **Google BigQuery / GCP**; performed EDA and applied ML techniques with Vertex AI.

EDUCATION

Enterprise and Technology Management

NWU Business School • 2024

BSc Mathematics and Physics

University of Johannesburg • 2019 – 2023

KEY STRENGTHS

- Ships production software end-to-end — see **kasikash.com** (live).
- Strong across the **full stack**: React/TypeScript front-ends and Node/PostgreSQL back-ends.
- Comfortable with **real-time systems**, queues, auth, and cloud deployment.
- Solid **CI/CD** discipline with GitHub Actions, Vercel, and Render.
- Analytical foundation (BSc Maths & Physics) for clean problem-solving.

ATS KEYWORDS

Software Developer • Full-Stack Developer • Software Engineer • Web Development • TypeScript • JavaScript • Python • React • Node.js • Express • REST API • PostgreSQL • Prisma • Redis • Supabase • SQL • Socket.IO • Real-Time Systems • JWT Authentication • Tailwind CSS • Vite • Git • GitHub • GitHub Actions • CI/CD • Vercel • Render • AWS • Google Cloud Platform • Cloud • LLM Integration • Agile

CERTIFICATIONS

Machine Learning Specialization

DeepLearning.AI / Stanford University (Andrew Ng)

ITIL 4 Foundation

IT Service Management

LANGUAGES

- English — Professional
- isiZulu — Native
- Sesotho — Conversational
