

SINETHEMBA MVELASE

IT Project Manager | Digital Transformation & AI Adoption | Governance & Delivery

Johannesburg, South Africa (Open to Relocation & Remote) • thegoatzeldris70@gmail.com • +27 72 411 0997

Portfolio Project: kasikash.com • GitHub: github.com/snerantie

PROFESSIONAL SUMMARY

Technology and delivery professional with a **BSc in Mathematics and Physics**, an **Enterprise & Technology Management** qualification, and **ITIL 4 Foundation** certification, currently supporting **project governance and delivery** as a Discover Graduate Trainee at **Vodacom Financial Services**. Experienced in partnering with business and IT stakeholders across **PI Delivery, Steering Committees, and Management Committees** to plan, track, and report on technology initiatives.

Combines strong **stakeholder communication and executive reporting** with hands-on exposure to **AI and automation** — having built production tools on **Anthropic Claude** and evaluated Generative AI use cases for efficiency. Comfortable translating business challenges into structured plans, driving **process improvement**, and enabling **adoption of new technologies**.

Eager to bring delivery discipline, digital-transformation enthusiasm, and AI fluency to the **IT Project Manager** role at Goodwill Industries of South Florida — aligning projects with enterprise AI initiatives, governance standards, and measurable business outcomes.

CORE COMPETENCIES (MAPPED TO ROLE)

- Project Delivery:** Scope & Goal Definition • Milestone & Timeline Planning • Status Reporting • Risk & Issue Management • Project Governance • Postmortems / Lessons Learned
- Stakeholder Management:** Business & IT Stakeholder Engagement • Executive Presentations • Requirements Gathering • Expectation Management • Cross-Functional Collaboration
- Change Management & Adoption:** User Enablement • Training & Communication • Digital-Transformation Support • Process Improvement
- AI & Digital Innovation:** AI Use-Case Identification • Enterprise AI Platforms (Anthropic Claude, Microsoft Copilot, Google Gemini awareness) • Workflow Automation • Responsible/Ethical AI
- Reporting & Analytics:** Power BI • Executive Dashboards • KPI & Outcome Tracking • Data Quality & Governance
- Frameworks & Methods:** ITIL 4 • Agile practices • SDLC awareness • Governance, Risk & Compliance awareness (NIST familiarisation)
- Tooling:** Microsoft PowerPoint & Excel (Advanced) • Power BI • GitHub / GitHub Actions • Project tracking tools

SKILLS MATRIX

Area	Detail	Level
Project & Delivery Management	Planning, milestones, status reporting, governance, stakeholder mgmt	Intermediate (supporting leading)
Stakeholder Communication	Executive reporting, presentations, requirements gathering	Advanced
Change Management & Adoption	Training, communication, digital-transformation enablement	Intermediate
AI & Automation	Claude/Bedrock, Generative AI use cases, workflow automation	Intermediate–Advanced
Reporting & Analytics	Power BI, Excel, KPI/outcome tracking, dashboards	Advanced
Frameworks	ITIL 4 Foundation, Agile, GRC/NIST awareness	Foundational–Intermediate
Technical Literacy	Python, SQL, cloud (AWS/GCP) — credible with technical teams	Advanced (technical fluency)

PROFESSIONAL EXPERIENCE

Discover Graduate Trainee — Technology Management (Project Governance & Delivery) Feb 2025 – Present
Vodacom Financial Services — Johannesburg, South Africa

- Provide **project governance and delivery support** across **PI Delivery, Steering Committees, and Management Committees**, helping plan scope, track milestones, and report progress to senior management.
- **Communicate project expectations and status** to business and IT stakeholders through executive reports, presentations, and dashboards.
- Support **Risk Management, Technology Assurance, and AWS Cost Optimization** initiatives — identifying issues, tracking actions, and maintaining alignment with governance standards.
- Evaluate **AI and automation use cases** (including Generative AI) to improve operational efficiency, contributing to the organisation's digital agenda.
- Drive **process improvement** by automating reporting workflows and standardising KPIs across business units.
- Apply **ITIL 4** service-management practices to delivery and assurance activities.

Reporting Analyst Intern Jun 2024 – Jan 2025
Vodacom Financial Services — Johannesburg, South Africa

- Built **Power BI dashboards** and reporting used by stakeholders to track performance and outcomes — directly relevant to tracking project performance with enterprise analytics.
- Delivered recurring status and performance reports; performed data cleaning, transformation, and KPI tracking.
- Automated repetitive reporting, improving turnaround, accuracy, and data quality.

Data Scientist (Project-Based Engagement) Cross-Border
Vodafone Portugal — Data Science Project

- Delivered a scoped analytics engagement end-to-end — requirements, data extraction (BigQuery/GCP), analysis, and stakeholder-ready recommendations.
- Coordinated with a cross-border team, managing expectations and delivering outputs on schedule.

DIGITAL TRANSFORMATION & AI DELIVERY (PROJECT PORTFOLIO)

KasiKash — AI Platform (Owned Idea Production)

[kasikash.com](#)

- Owned an initiative **end-to-end**: scope, planning, delivery, deployment, and iteration — demonstrating full project lifecycle ownership and outcome focus.
- Managed dependencies, timelines, and releases via **GitHub Actions CI/CD**; delivered a live, adopted product.

CAPS AI Tutor — Enterprise AI Adoption Example

Claude / LLM

- Implemented an **enterprise-grade AI assistant on Anthropic Claude** with real user adoption via WhatsApp/USSD — practical experience enabling AI-platform adoption and change.

EDUCATION

Enterprise and Technology Management
NWU Business School • 2024

BSc Mathematics and Physics
University of Johannesburg • 2019 – 2023

KEY STRENGTHS

- ITIL 4-certified** with real project-governance exposure (PI Delivery, Steering Committees).
- Strong **stakeholder communication** and executive reporting.
- Genuine **AI & automation fluency** (Claude, Copilot/Gemini awareness) to drive adoption.
- Power BI** for tracking project performance and outcomes.
- Technical literacy (Python, SQL, cloud) earns credibility with IT teams.

ATS KEYWORDS

IT Project Manager • Project Management • Digital Transformation • Change Management • User Adoption • Stakeholder Communication • Requirements Gathering • Project Governance • Milestones • Status Reporting • Risk Management • Process Improvement • AI Adoption • Artificial Intelligence • Automation • Microsoft Copilot • Google Gemini • Anthropic Claude • Generative AI • Power BI • Analytics • Data Governance • Data Quality • ITIL 4 • Agile • NIST • Governance Risk Compliance • SDLC • AI Steering Committee • Enterprise AI
